

Introducing:

## Reflections Hard Surface Restoration, LLC

We are a new business start up, servicing the Greater Cincinnati and Dayton areas. Our goal is to provide the best hard surface restoration service possible. We normally achieve around an 80% restoration. We can also prolong the time between cleanings by offering a full line of sealants to reduce the absorption rate of new dirt. This significantly lengthens the time between cleanings.

Our state of the art cleaning system uses 4 components working in harmony to produce extraordinary results.

### 4 COMPONENTS TO CLEANING

WE UTILIZE FOUR COMPONENTS WORKING IN HARMONY THAT ALLOWS US TO SURGICALLY REMOVE THE SOIL THAT IS IMPACTED IN THE POROUS PARTS OF THE TILE AND GROUT.

<b>EMULSIFIER</b> WE USE A NON TOXIC FRIENDLY SPRAY THAT IS DESIGNED TO SAFELY AND QUICKLY LOOSEN UP THE SOIL	
<b>HIGH PRESSURE</b> CONTAINED HIGH PRESSURE WATER THAT IS ADJUSTED BETWEEN 200 PSI AND 1500 PSI TO PENETRATE EVEN THE TOUGHEST AREAS...	
<b>HEAT</b> WE USE UP TO 230 DEGREES OF HEAT	
<b>VACUUM</b> OUR VACUUM PROCESS SURGICALLY LIFTS THE SOIL AND DIRTY WATER OFF YOUR FLOOR
